23 An order was entered June 11, 2007 in this application, advising the
24 Applicants that the opinion dated May 31, 2007 was to be made available for
25 public inspection because it involves an interpretation of patent laws that
26 would be of interest to the patent community.

27 As the application remains unpublished, the Applicants were advised
28 in that order that they may file an objection under 37 CFR §1.14(e)(2),
29 pertaining to confidential information.

30 A teleconference was conducted between Administrative Patent Judge
31 James T. Moore and Kathleen Fowler, counsel for the Applicants, on Friday,
32 July 13, 2007 at approximately 2:00 PM. During that teleconference, Ms.
33 Fowler indicated that no objection will be filed.

1 Accordingly, it is hereby ORDERED that the decision in Appeal
